**...GETS RESULTS**

Darriman Lime has been quarrying a high quality soft coral lime deposit, ideal for agricultural use in Gippsland for over 50 years.

Produced at Woodside in Gippsland, its production process allows for repeatable and reliable high quality soft ground limestone for years to come.

Due to its high levels of calcium and superior neutralising value,

this quality soft lime is a perfect soil conditioner that will reduce your soil acidity quickly and will provide your soil with the calcium that it requires. By applying Darriman Lime, availability of essential plant nutrients is increased and improvements in plant health and animal health are continually achieved.

## Darriman Lime Typical Analysis

<b>Calcium Carbonate Equivalent</b>	<b>CaCo3</b>	<b>70.50%</b>
<b>Calcium</b>	<b>Ca</b>	<b>30.00%</b>
<b>Magnesium Carbonate Equivalent</b>	<b>MgCo3</b>	<b>1.20%</b>
<b>Neutralising Value NV Calculated</b>		<b>82.60%</b>
<b>Effective Neutralising Value - ENV</b>		<b>73.80%</b>
<b>Moisture</b>		<b>8.50%</b>
<b>Phosphorus</b>	<b>Ppm</b>	<b>147.00</b>
<b>Potassium</b>	<b>%</b>	<b>0.5</b>
<b>Sulphur</b>	<b>ppm</b>	<b>50.00</b>
<b>Sodium</b>	<b>%</b>	<b>0.16</b>
<b>Manganese</b>	<b>ppm</b>	<b>90.00</b>
<b>Zinc</b>	<b>ppm</b>	<b>12.70</b>
<b>Copper</b>	<b>ppm</b>	<b>2.40</b>
<b>Cobalt</b>	<b>ppm</b>	<b>7.00</b>

***Don't lose production  
due to a soil acidity problem!***

## DOLLARMIGHT LIME

Magnesium is an essential micro nutrient that is important in achieving a well-balanced soil and improving animal health.

By applying Darriman Dollarmight Lime, not only will you receive the benefits of Darriman Lime, but you will also be correcting magnesium deficiencies that may be present within your soils.

### Darriman Dollarmight Lime Typical Analysis

<b>Calcium Carbonate Equivalent</b>	<b>CaCo3</b>	<b>89.50%</b>
<b>Calcium</b>	<b>Ca</b>	<b>34.00%</b>
<b>Magnesium Carbonate Equivalent</b>	<b>MgCo3</b>	<b>12.52%</b>
<b>Total Magnesium</b>	<b>Mg</b>	<b>3.80%</b>
<b>Neutralising Value NV Calculated</b>		<b>92.40%</b>
<b>Effective Neutralising Value - ENV</b>		<b>83.20%</b>
<b>Moisture</b>		<b>7.40%</b>
<b>Phosphorus</b>	<b>ppm</b>	<b>147.00</b>
<b>Potassium</b>	<b>%</b>	<b>0.5</b>
<b>Sulphur</b>	<b>ppm</b>	<b>50.00</b>
<b>Sodium</b>	<b>%</b>	<b>0.16</b>

### Benefits of Darriman Lime:

- Increases the Soils pH
- Improves Calcium Levels within the Soil
- Reduces Aluminium Levels
- Decreases High Levels of Magnesium within the Soil
- Reduces High Levels of Sodium within the Soil
- Decreases Soil Compaction Issues
- Improves Soil Structure, Plant Root Depth and Plant Health.
- Increases Pasture Growth
- Improves Animal Health
- Allows for Yield and Production Increases
- Reduces Soil Acidity problems
- Improves Nutrient Availability and Efficiency of Fertilisers

#### Dutson Depot:

980 Longford Loch Sport Rd, Dutson, 3851.  
**Phone** 03 5149 7131
